Bright Light Salt Painting

Supplies

- Cardstock
- Liquid water colors or diluted food coloring
- Salt
- White glue
- Paint brush

Directions

- Onto the cardstock draw out shapes of fireworks using the glue.
- Sprinkle salt onto the glue, making sure all the glue is covered.
- Shake of excess salt.
- Now you can paint the salt using the water colors or food coloring. Gently tap the salt with the colors and watch the paint spread.

The Great Escape Room

Directions

- Plan what skills you want kids to learn or practice. Kids can practice any skill when solving an escape room activity. Kids can work on math, reading, science, history, or any other topic.
- Plan and set up the challenges. Create puzzles and interactive challenges that align with the skills you want to teach.
- Hide the challenges in designated locations. This step is optional but adds a huge element of excitement to your escape rooms.
- Set the stage. Give kids a fun and silly reason for the challenge. Whether aliens are taking over or a zoo got loose, kids need a reason to work together and escape the room. Giving a great introduction can help kids really get into the escape room to start.

Supplies

- Use these websites to help you build your own DIY Escape Rooms!
