

Open Share Groups

Open Share Groups are support groups designed to meet the recovery needs of a broad range of participants. Open Share Groups are great entry points and sustainable access points in any one's journey of recovery. It's a safe place to have dialogue and community with people who are struggling just like you.

Mixed Issues (For Men & Women)

This is a group that will help you address and begin the healing process for your hurt, hang-up, or habit. Your struggle is important to us, and we look forward to walking with you on your unique recovery journey. Through a relationship with Jesus Christ as Savior and Higher Power, and by working through the 8 recovery principles and the Christ-centered 12 steps, we can find freedom from our hurts, hang ups and habits.

Co-Dependency (For Women)

Co-dependency is when a person's need for approval or validation from another person allows them to be controlled or manipulated, or a person who attempts to manipulate or control someone. They are willing to compromise their own values, choices, and behavior at the expense of their personal well-being. Through a relationship with Jesus Christ as Savior and Higher Power, and by working through the 8 principles and the Christ-centered 12 steps, we can find freedom from our hurts, hang ups and habits.

Chemical Dependency (For Men & Women)

Have you ever thought you have a problem with drinking alcohol or using drugs? If so, you may have tried to quit on your own and found that while you can gain some level of sobriety, freedom from the compulsion to use your drug of choice has been elusive. At Celebrate Recovery we know that a relationship with Jesus Christ as our Higher Power can set us free.

Sexual Addiction (For Men)

Our lust often begins as an overpowering desire for pleasurable relief. We may be running from an inner pain, loneliness, emptiness, or an insecurity, and find that sex is the best way to cope. However, that pleasure often brings with it more tension, depression, rage, guilt, and even physical distress. As we continue in our self destructive behaviors, sexual addiction jeopardizes our relationships, health, jobs, morals and values. Ultimately, sexual addiction takes the place of God in our lives as a coping mechanism to deal with life's hardships.
